

ECCS Press-Release | 16 July 2016

European Steel Bridge Awards 2016

The European Steel Bridge Awards are given by ECCS every two years to encourage the creative and outstanding use of steel in construction of bridges. The awards are dedicated to the owner, general contractor, the architects, the engineers and the steelwork contractors of each outstanding steel bridge project. We can now proudly present the finalists in the two categories; Road and Railway Bridges and Pedestrian and Cyclist Bridges. In addition, the Jury has decided two special awards: *Special Social and Research Award*, & *Special Engineering Award*.

Jury

The jury consisted of Johan Löw, Representative of Hosting Full Member, Veronique Dehan, ECCS Secretary General, Lasse Kilvær, Chairman of AC4 Architectural Awards Committee, Oliver Hechler, Chairman of AC3 Bridge Committee, Erik Andersson, Sweden: Architect from Hosting Nation, Arne Eggen, MNAL Architect, Norway: International representative and Prof. Helena Gervasio, University of Coimbra, Portugal: International representative

Finalists

The European Convention for Constructional Steelwork has the pleasure to present the following finalists for ECCS Steel Bridge Awards 2016. The Steel Bridge Awards 2016's winning projects will be presented to an international audience at a ceremony in Stockholm on November 14th, 2016.
